YOUR STOMACH IS A CHURN

CAUSED BY LIGHTNING.

Opinion that the Woodbury Mill Was Struck and Fired by Lightning.

A few days ago the Citizens gave an account of the burning of the Woodbury mill at Woodbury, in the Cochiti mining district. W. C. Wyckoff, who is the manager of the Cochiti Reduction and Development company, who was at the mill when destroyed, gave his opinion that lightning caused the fire.

At the time a storm was on, with little rain, but considerable lightning. Mr. Wyckoff said the plant had cost \$25,000 and was insured in a Denver agent for \$20,000. As to rebuilding, he said: "A new plant will be put up at once. We can utilize the building we have, and the foundation walls, much of the brick, and some of the iron. This new plant will be constructed on somewhat different plans. We will put in the cyanide leaching system straight, and also the combination of pen amalgamation and cyanide in vats in the old mill, and by which we were enabled to save 50 per cent of the cost. The new plant will cost \$100,000. It will treat 200 tons of ore from the Iron King mine daily, and we hope to have it ready to blow in in about 120 days.

Dr. Pierce's Golden Medical Discovery has proved a great blessing to me. I write Mrs. E. H. Jones, of Woodbury, Franklin Co., N. H., who writes: "I have been suffering from indigestion for several years, and have tried every remedy, but have not been able to get any relief. I have been told that Dr. Pierce's Golden Medical Discovery would cure me, and I have tried it, and I am now well. I have been able to eat and sleep, and I feel like a new man. I have been able to do my work, and I am now well. I have been able to eat and sleep, and I feel like a new man. I have been able to do my work, and I am now well.
